

-1-(Twice amended)

C
A composition for treating an equid infected
with *Sarcocystis neurona* comprising a mixture of
isolated antibodies against a 16 \pm 4 kDa antigen of
Sarcocystis neurona and isolated antibodies against a 30
5 \pm 4 kDa antigen of *Sarcocystis neurona*.

-2-(Amended)

C
The composition of Claim 1 wherein the
antibodies are selected from the group consisting of
polyclonal antibodies and monoclonal antibodies.

-3-(Amended)

The composition of claim 1 wherein the
composition is provided in a pharmaceutically accepted
carrier.

A method for treating an equid infected with *Sarcocystis neurona* comprising:

5 (a) providing antibodies against a 16 \pm 4 kDa antigen and a 30 \pm 4 kDa antigen both of which are specific to *Sarcocystis neurona* wherein the antibodies are selected from the group consisting of polyclonal antibodies and monoclonal antibodies; and

(b) inoculating the equid with the antibodies to treat the equid.
